Professional Summary

Currently pursuing M.E. in Computer Engineering (CGPA: 9.32) with practical experience in Node.js, Express.js, MongoDB, and React.js. Built full-stack web applications featuring REST APIs, JWT authentication, and responsive client-facing websites for real businesses. Seeking a full-time Full Stack Developer role where I can contribute to real-world projects and continue growing as a backend and front-end engineer.

Education

LDRP Institute of Technology and Research <i>Master of Engineering (M.E.) in Computer Engineering (Pursuing) (current CGPA: 9.32)</i>	2025 - 2027
Gujarat Technological University (GECM) <i>Bachelor of Engineering in Computer Engineering with 7.91 CGPA</i>	2020 - 2024

Academic Projects

PublishPro- A Blogging Platform <i>ReactJS, NodeJs, MongoDB, ExpressJs, JWT, Cloudinary, Render</i> Link - Developed and deployed a full-stack MERN blogging platform with TinyMCE rich-text editing, search/filtering, likes, bookmarks, comments, view tracking, Cloudinary image uploads, profile management, and a statistics dashboard. - Implemented secure JWT authentication with httpOnly access/refresh tokens, Axios-based silent refresh, multi-device session management and revocation, password reset/change with session invalidation, and transactional emails via Nodemailer/Resend following OWASP best practices.
URL Shortener Web Application <i>Node.js, Express.js, MongoDB, EJS, Zod</i> Link - Built a full-stack URL shortener with custom shortcodes and a dashboard for creating, editing, deleting, and managing links, with Zod validation to prevent malformed or duplicate entries. - Implemented secure JWT authentication with Argon2 password hashing, protected sessions, email-based password reset and OTP account verification using Nodemailer/MJML, ensuring secure API access and data integrity.
Makewell Agri Equipments - Website <i>React.js, TailwindCSS, Javascript</i> Link - Developed a multi-page React marketing website with React Router, featuring a filterable product catalogue, contact form with async email validation, Web3Forms API integration and responsive mobile-first layout with a slide-in navigation drawer- all in plain CSS. - Purchased and configured a custom domain, deployed the production website on Vercel with GitHub integration for streamlined version control and continuous deployment, and implemented SEO metadata.

Experience

Intern ReactJs Developer <i>The One Web Technology</i>	January 2024 - April 2024 <i>Vadodara, India</i>
- Built FoodZing, a fully responsive food-ordering web application using React.js and Firebase, with real-time database, user authentication, and a mobile-first UI. - Implemented reusable component architecture, reducing code duplication across pages and improving maintainability of the codebase. - Ensured cross-platform compatibility across web and mobile browsers by addressing layout and performance issues during testing.	

Technical Skills

Frontend Development: React.js, JavaScript(ES6+),HTML5, CSS3, Tailwind CSS, Bootstrap
Backend Development: Nodejs, Expressjs
Database and BaaS: MongoDB, MySQL, Firebase **ORM / Validation:** Prisma, Drizzle ORM, Zod
Tools and Design: Git, GitHub, Visual Studio Code, Figma, Canva
Soft Skills: Communication, Teamwork, Adaptability, Time Management, Work Ethic
